**The 21<sup>st</sup> DVN workshop will take place in Tokyo  
on December 1<sup>st</sup> & 2<sup>nd</sup>, 2020, at the prestigious Ritz Carlton Hotel, Midtown Tower**

Driving Vision News organize their 21<sup>st</sup> workshop in Tokyo on the 2nd of December 2020 at the Ritz Carlton Hotel with a welcome dinner the evening before.

**Digital Lighting Technologies, Lighting Communication, and Regulation** is the theme of this event.

**HD HL, advanced signalling, new functions, advanced development tools, electronics, simulation, condensation management,** are the topics which will be presented.

**23 lectures** with simultaneous translation English-Japanese are expected from OEMs Honda, Nissan, Toyota, Audi, set makers Ichikoh, Koito, Stanley, Marelli-AL, Mobis, Varroc, light sources makers Nichia, Everlight, Lumileds, Osram and Seoul SC, and Electronics, Simulation, Condensation Management Tier 2 lighting suppliers.

In the past, DVN workshops have provided an effective forum to support GTB initiatives to develop global technical requirements and to remove regulatory barriers.

A special session chaired by Geoff Draper, GTB President, will explore what is the main challenge to our lighting family during a session titled: **"Innovation and Regulation – Time for a reality check!"**

23 Lighting suppliers exhibition booths will window-show and illustrate the most advanced cutting-edge technologies and trends.
