

PRODUCTION AUTOMATION

Manufacture your innovative products faster, better and easier with our assembly lines and process automation.

We are IMS: an experienced machine builder in developing and building automated assembly lines and process automation for small, complex products and assemblies.

This results in **faster, better and more accurate** production for your innovative products and takes you steps ahead of your competitors.

What can we do for you?

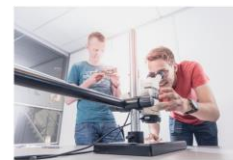

ASSEMBLY LINES

Engineering and building assembly lines

ADDITIONALLY

PRE-AUTOMATION ANALYSIS

SERVICE

In-house competences for:

TECHNICAL

- Precision handling:** high-precision
- Micro assembly:** highly accurate, alignment
- System Integration:** processes, transport and handling data-tracking

PROCESSES

- High accuracy positioning
- Welding (e.g. laser, ultrasonic, resistance)
- Leak testing (e.g. helium, pressure decay)
- Vision
- Laser marking
- Dispensing, gluing
- Functional testing
- Screwing
- Cleaning (e.g. ionized air, CO2)

PLEASE GET IN TOUCH TO DISCUSS THE POSSIBILITIES FOR THE ASSEMBLY OF YOUR PRODUCTS
