

2021 DVN SHANGHAI INTERNATIONAL WORKSHOP

2021年DVN汽车照明创新技术国际研讨会

APRIL 19th-20th, 2021 • MARRIOTT SHANGHAI PARKVIEW HOTEL

2021年4月19-20日 • 上海宝华万豪酒店

Smart HMI Surfaces with Touch Sensors

Dr. Wolfgang Clemens, Director Product Management & Business Development

PolyIC GmbH & Co. KG – wolfgang.clemens@polyic.com

Contact KURZ China: Best Gu: Lingjun.Gu@kurz.com.cn

Smart HMI Surfaces with Touch Sensors

Agenda

- HMI Automotive Trends
- PolyIC – a KURZ Company
- PolyTC[®] Touch Sensors
- Smart HMI Surfaces with Touch Sensors
 - Products, Use Cases:
 - Decoration, Light & Function
- Contact / Address

HMI Automotive Trends – Part I

Light and function everywhere – large – curved – seamless – shytech

BMW

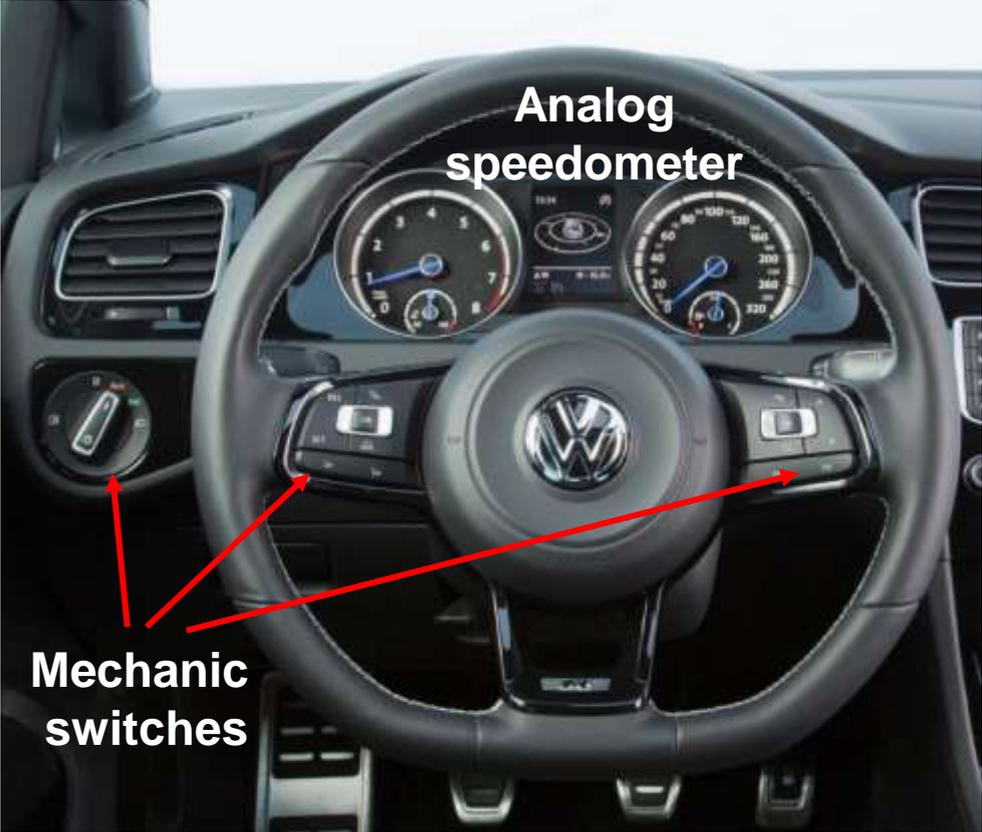

Nissan

HMI Automotive Trends – Part II

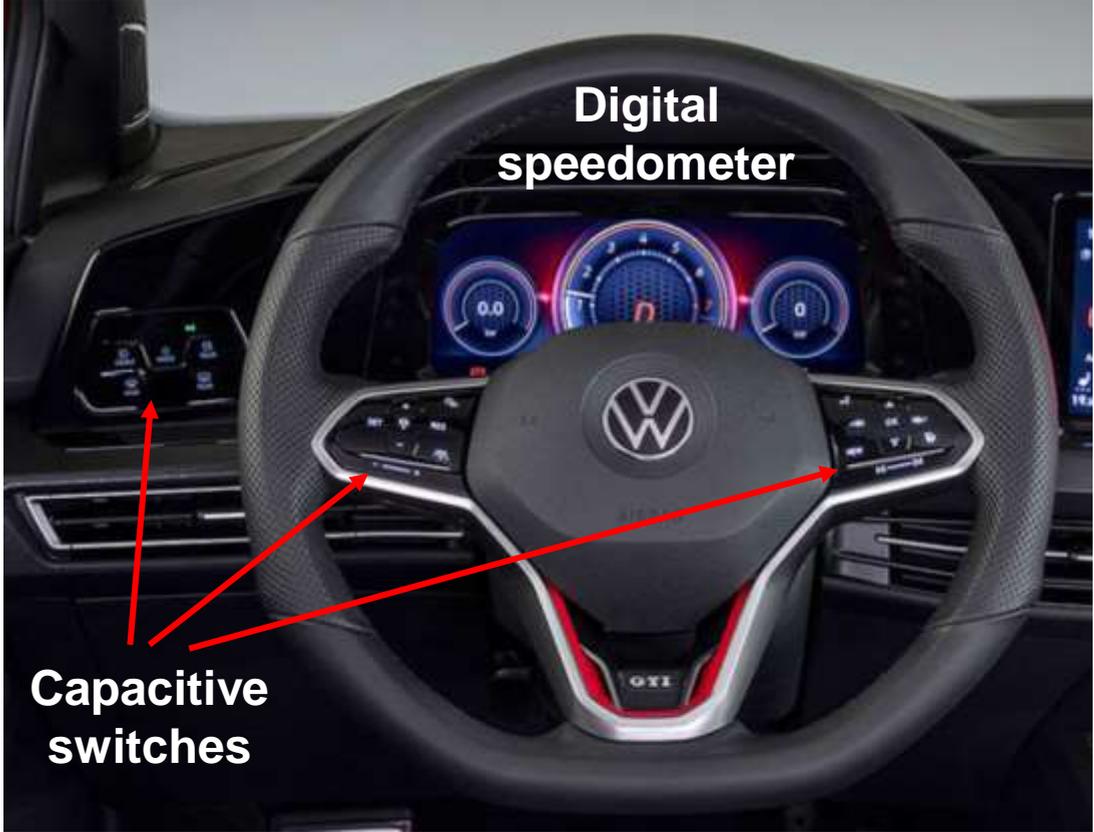

Capacitive switches everywhere – no more mechanical switches

Example Volkswagen Golf

2019

2020

PolyIC – a KURZ Company

Basic Information

PolyIC GmbH & Co. KG

2003: Founded as joint venture between
SIEMENS AG and LEONHARD KURZ
Stiftung & Co. KG

2010: 100% part of LEONHARD KURZ
Stiftung & Co. KG (KURZ)

- Place: Fürth / Germany
- **Products:** Capacitive touch sensors based on **PolyTC®**
transparent and conductive films
- Focus of PolyIC Team is on Engineering
and Product Management
- Production, Infrastructure & Sales:
done by KURZ

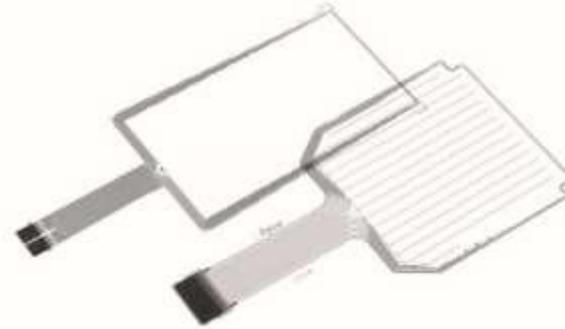

Basic Information

Roll-to-Roll Production

- Substrate: PET (Polyester)
- Silver (Ag) Metal Mesh Technology
- Ag layer thickness < 100 nm

High performance

- High electrical conductivity
- High optical quality
- Thin, flexible & light weight
- Customized high-volume production
- Multiple integration options
- Low price level

the KURZ Group

China Contact:

Kurz Shanghai

上海市漕溪北路375号中金国际广场C座1402室

Room 1402,Zhongjin International Plaza C Block,

No 375, North Caoxi Rd, Shanghai, P.R.C

Tel: +86-21-6085-7600 Ext: 139

Cell: +86-139-1865-2387

KURZ 

- family run business since 1899 (5th generation)
- global leader in thin-film technology
- supplies products for surface finishing, decoration, labelling and counterfeit protection
- over 5,000 employees
- global presence in more than 30 locations
- manufactures in Europe, Asia and the USA

KURZ companies active in HMI solutions, besides

POLY IC 
a KURZ company

BURG DESIGN

- Production Company with strong Focus on Design

BURG DESIGN 
a KURZ company

SCHÖFER

- Creative Molding Solutions and Part Production

SCHÖFER 
a KURZ company

BAIER

- Hot Stamping Machines
- FFB Machines

BAIER 
a KURZ company

H+M

- Jigs and dies for Hot Stamping and FFB Applications

H+M 
a KURZ company

Impressive Awards for KURZ

In 2020, KURZ was able to convince the juries of the Automotive Brand Contest, the Red Dot Award and the Bavarian Innovation Award (Innovationspreis Bayern 2020) with innovative concepts.

**PolyIC
Touchscreen
Sensor (IML, Lam)**

Visionary exterior front panel

Futuristic lighting concept with backlighting and self-healing surface thanks to our highly efficient dual technology IMD PUR in an aesthetic day-night design for visual interaction with other road users.

**PolyIC
Button / Slider
Sensor (FFB)**

reddot winner 2020
innovative product

**PolyIC
3D Slider Sensor
(FFB+HPF+IML)**

Concept parts with 3D-molded sensor

Combination of IMD VARIOFORM® and Functional Inmold Labeling (IML) processes; decorating, thermoforming, sensor integration and die-cutting in a single step. The 3D-molded PolyTC® capacitive touch sensor hugs the component seamlessly.

Automotive panel in functional dashboard design

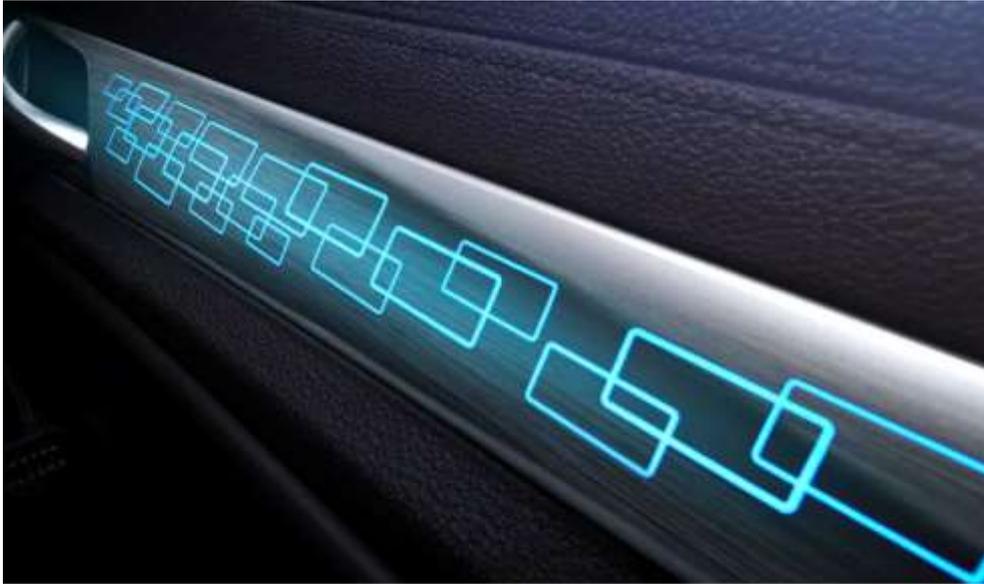

Smart HMI concept with capacitive sensor technology in backlit Dead-front design, realized by In-Mold Decoration (IMD), In-Mold Labeling (IML), Functional Foil Bonding (FFB) and a lamination process.

Case studies Vacuum forming INS/PMD decoration by KURZ

Light and function everywhere – hidden until lit, seamless, curved, integrated

HMI Automotive Trends, case studies

VW ID.3 – Capacitive Steering Wheel Switch

- Capacitive Touch Sensor
- 3D shaped Panel
- Hidden until lit symbols
- Active haptic feedback

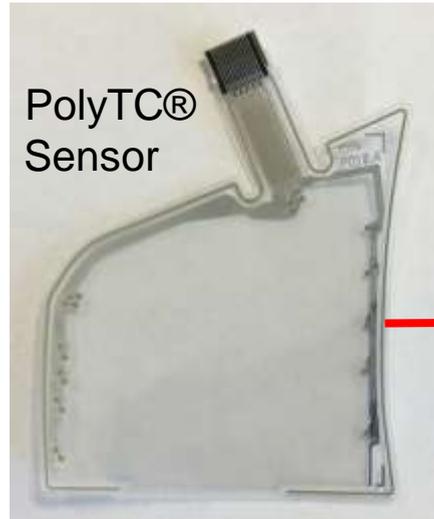

HMI Automotive Trends, case studies

VW ID.3 – Capacitive Steering Wheel Switch

Capacitive Steering Wheel Switch

- Capacitive Touch Sensor
 - free programmable matrix
- 3D shaped Panel
 - Hidden until lit symbols
- Active haptic feedback

HMI Automotive Trends, case studies

Capacitive Steering Wheel Switch for VW MEB & MQB-platform

Capacitive Steering Wheel Switch

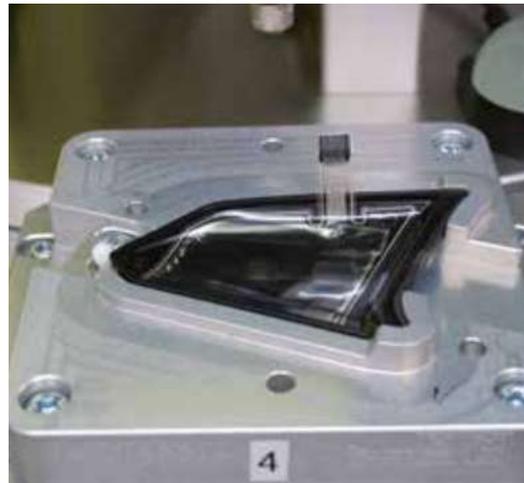

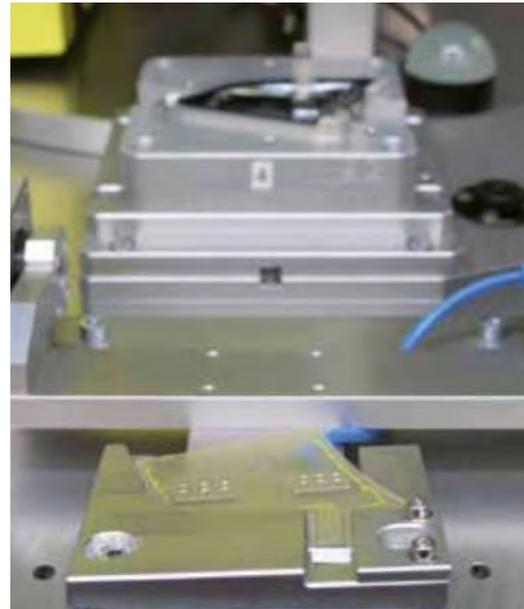

- PolyTC® touch sensors (matrix layout)
- Integration by Functional Foil Bonding (FFB)
- Bezel and FFB integration done by Kunststoff Helmbrechts – KH-Foliotec

PolyTC® sensors

Molded bezels

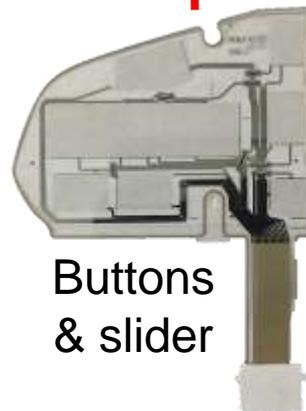

HMI Automotive Trends, case studies

Geely – Lynk&Co 05

Capacitive Steering Wheel Switch Button with haptic feedback

- Capacitive Sensor
 - PolyTC® Technology
 - with transparent buttons/matrix area
- Function left side
 - 6 capacitive Buttons
 - 1 capacitive Slider
- Function right side
 - transparent matrix
 - Free touch function
- Haptic feedback by mechanic switch

Buttons & slider

PolyTC® Sensor

Matrix

LYNK&CO

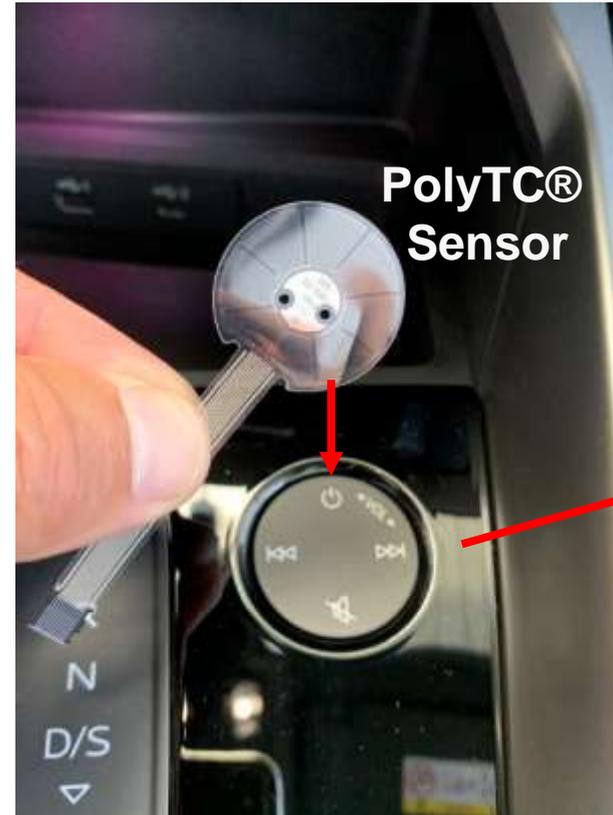

HMI Automotive Trends, case studies

Audi A3 Sportback

Capacitive Switch button with haptic feedback

- Capacitive Sensor
 - PolyTC® Technology
 - with transparent buttons
- Function
 - Capacitive Rotary slider for volume control
 - 4 capacitive Buttons for
 - On/off; mute; backward; forward
- Haptic feedback by mechanic switch

HMI Automotive Trends, case studies

HMI Case Study

HMI – Door Control Unit

- PolyTC® touch sensor
 - Button type
 - FFB integrated
 - 3D shape
- Hidden until lit decoration
 - Colored backlight
 - 3D seamless setup
- Active haptic feedback
 - Inclusive sound
- Partners: Ge-T, KH-Foliotec

HMI Automotive Trends, case studies

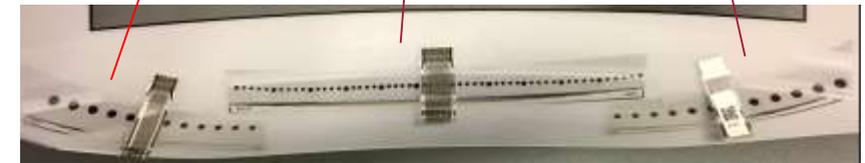

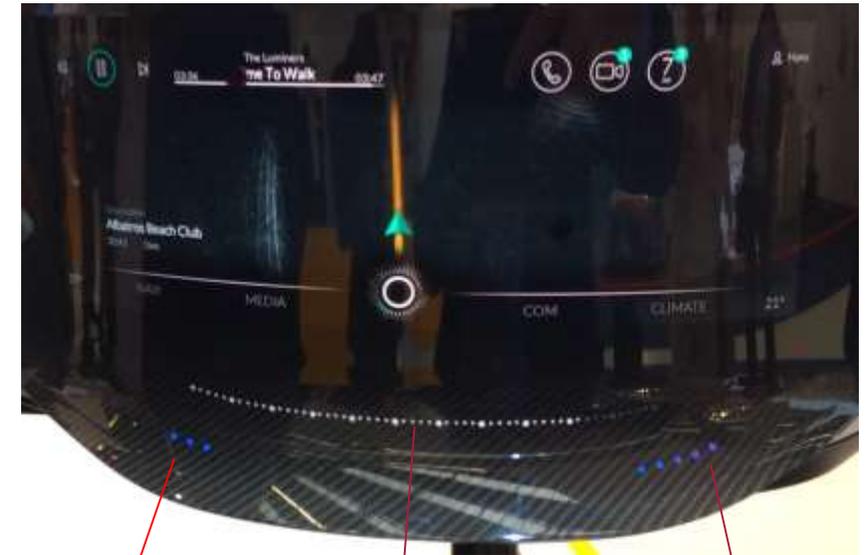

Cooperation with

Continental – Large Curved Plastic Lens

Seamless, curved, large and Integrated Instrument Panel

- IMD Top Coat by KURZ
- Touch Sliders by PolyIC

3 Touch Sliders

POLYTC[®]

KURZ IMD Top Coat (UV post - cured)

HMI Automotive Trends, case studies

Doortrim with active control of ambient light

Doortrim with day / night effect Touch Control & Light management

- Capacitive transparent touch sensor (buttons & slider)
- IMD decoration with day / night effect
- Integrated active control of backlight

POLYTC®

Sensor with 3 Buttons
& 1 Slider
Integration by FFB

Door trim with IMD Decoration

Ambient light control by touch function

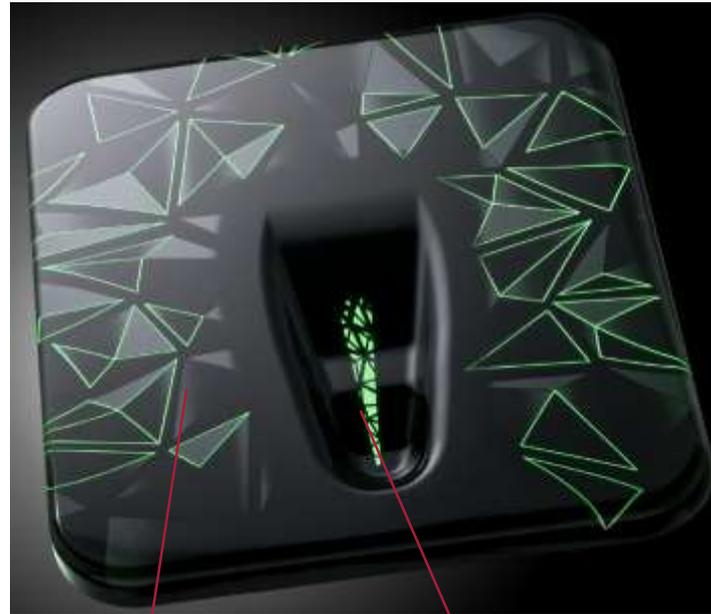

Making Every Product Unique

HMI 3D Control Unit Study

- KURZ IMD Varioform decoration
 - 3D Forming in mold tool
 - Single picture
 - Backlighting areas
- PolyIC 3D Touch Sensor
 - 3D form by HPF
 - Integration by IML
- Function
 - Capacitive slider
 - Sensor controls light

**KURZ
IMD Varioform
Decoration**

**POLY TC[®]
3D shaped
sensor**

HMI Automotive Trends, case studies

Making Every Product Unique

reddot winner 2020
innovative product

HMI – Instrument Panel

Organic shaped IMD decorated surface with **shytech backlighting** effects, a **seamless touchscreen** and **hidden til lit buttons** for intuitive touch operation

HMI Automotive Trends, case studies

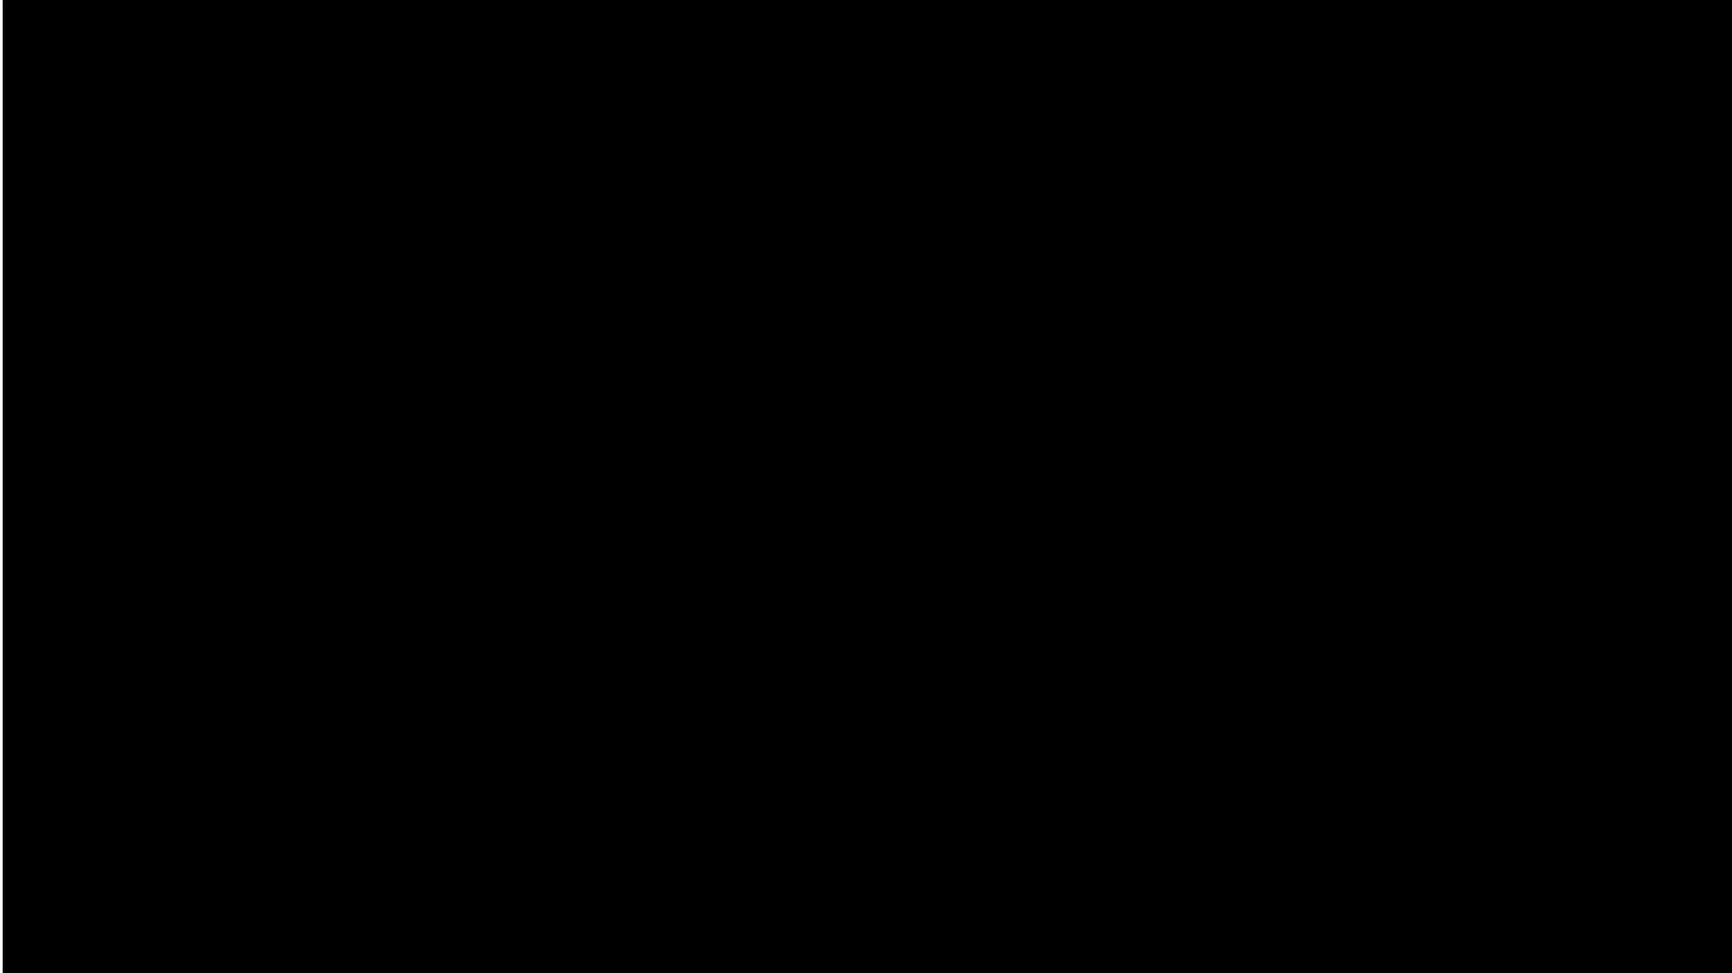

reddot winner 2020
innovative product

Making Every Product Unique

HMI – Instrument Panel

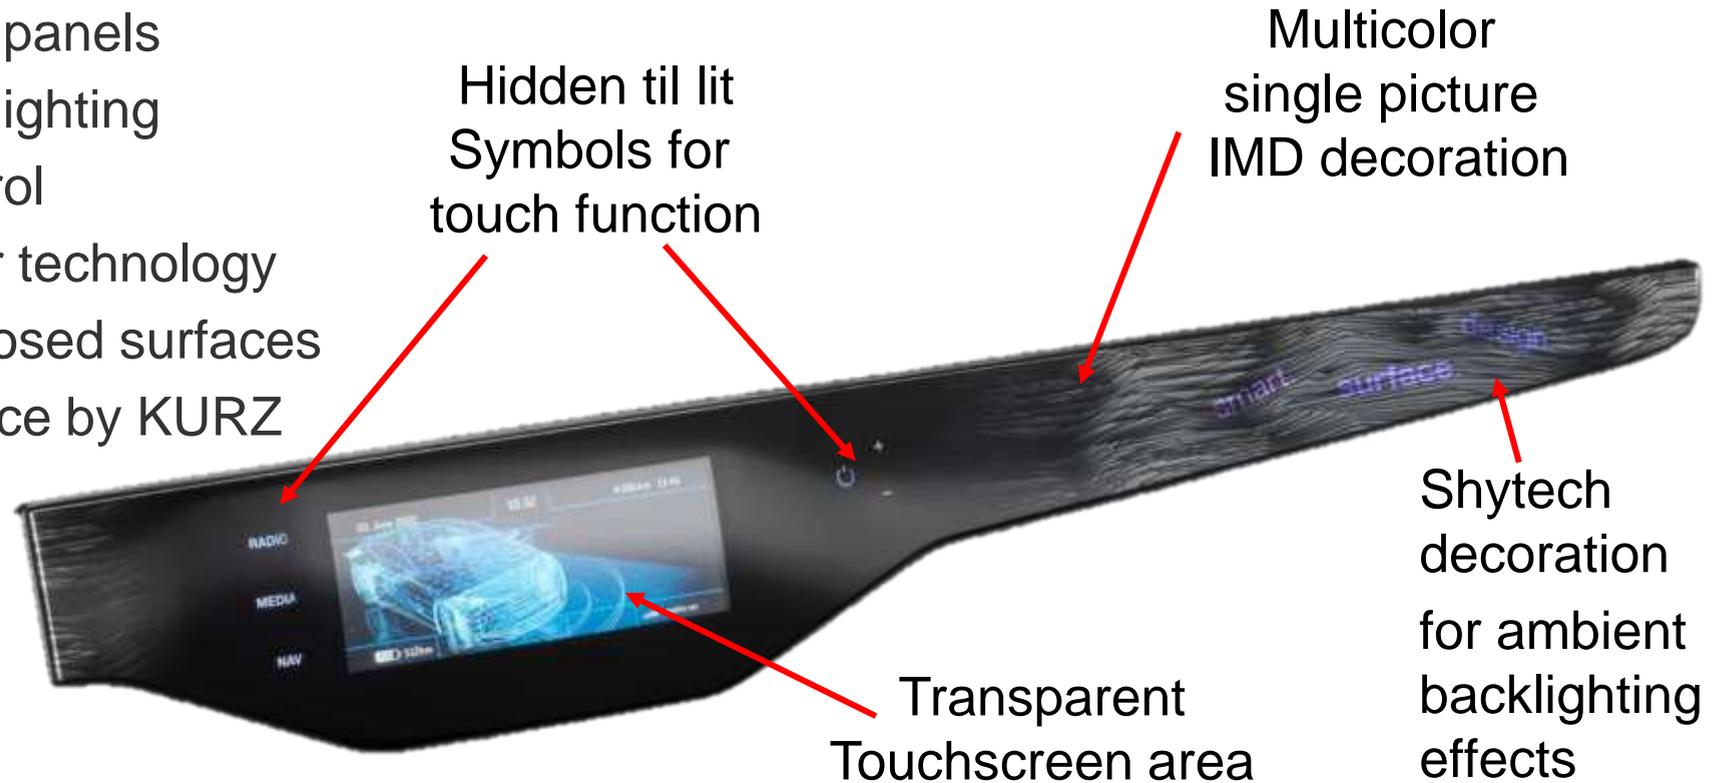

Making Every Product Unique

HMI Instrument Panel

- Organically shaped surfaces
- Seamless control panels
- Shytech ambient lighting
- Active touch control
- Capacitive sensor technology
- Homogenously closed surfaces
- Design competence by KURZ

KURZ IMD Decoration with transparent PC mold, total width > 900 mm

Front side

HMI Automotive Trends, case studies

reddot winner 2020
innovative product

Making Every Product Unique

HMI Instrument Panel

- Capacitive sensor technology
- PolyTC® Touchscreen sensor
 - Integration by IML or Lamination
- PolyTC® Button & Slider
 - Integration by FFB or Lamination
- PolyTC® Capacitive proximity sensor
 - Integration by FFB or Lamination

POLYTC®

PolyTC® touch sensor

3 buttons & 1 slider

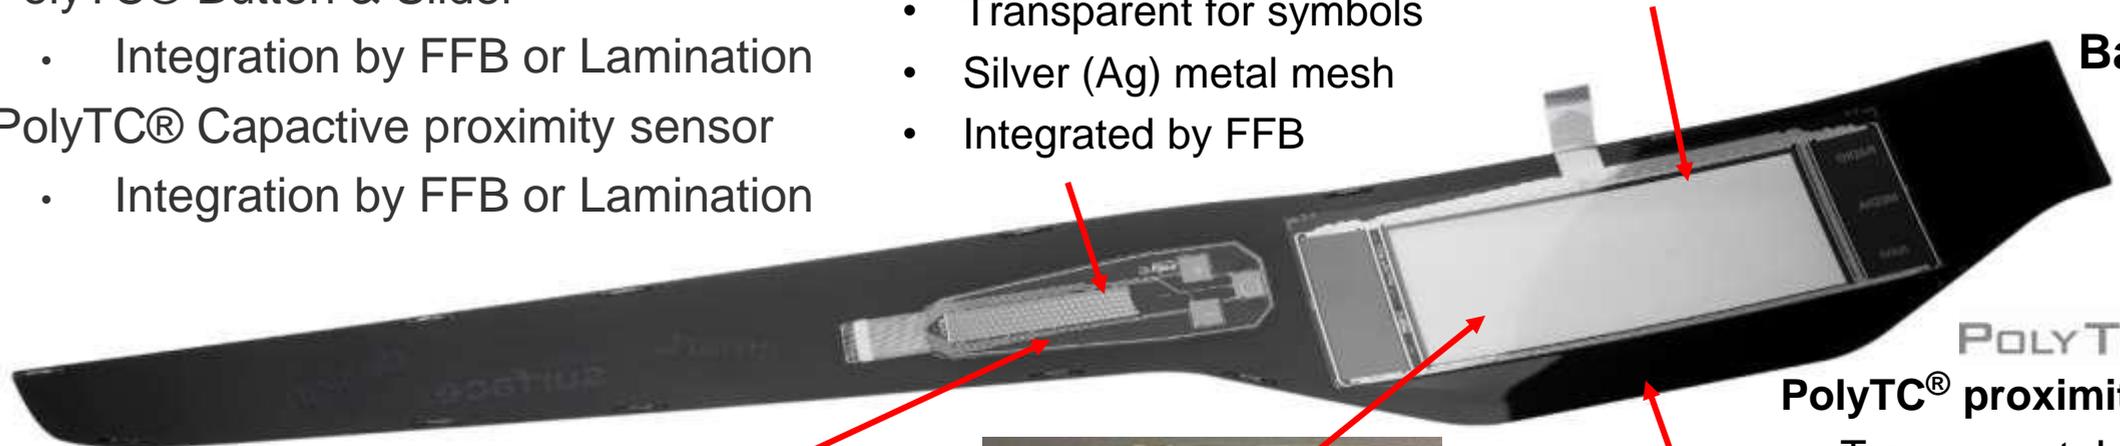

- Transparent for symbols
- Silver (Ag) metal mesh
- Integrated by FFB

PolyTC® 8" multi touch sensor

- Single layer multi touch
- Side buttons included
- Silver (Ag) metal mesh
- Integration by functional IML or lamination

POLYTC®

Back side

POLYTC®

PolyTC® proximity sensor

- Transparent; Integration by FFB or lamination

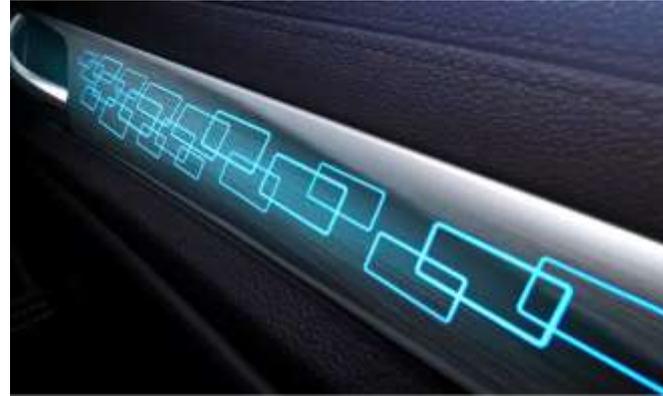

Smart HMI Surfaces with Touch Sensors

Our Solutions for your HMI products

- **Plastic Decoration**

- IMD, INS, PMD,
and more

- **Function**

- PolyTC®
Touch Sensors

- **Integration**

- IML, FFB, and more
