# DVN AUTOMOTIVE LIDAR & IR CONFERENCE & EXPO

"2025 - Enable A Safe L2+ / L3 Driving"

DORINT HOTEL PALLAS WIESBADEN, FRANKFURT AREA

- 7<sup>TH</sup> DVN CONFERENCE & EXHIBITION ON AUTOMOTIVE LIDAR -

## 7<sup>TH</sup> DVN CONFERENCE ON AUTOMOTIVE LIDAR ON NOVEMBER 18-19, 2024 FRANKFURT AREA

Dear Friends & Colleagues,

The 7<sup>th</sup> DVN Lidar Conference will take place on November 18-19, 2024, in the Frankfurt Area. Since their inception, DVN Lidar Conferences have quickly become the must-go technical congress to see and hear all about the latest innovations amidst the galloping growth of the automotive lidar sector.

Aligned with the conference program, we have planned ample time during breaks to visit the exhibition and get into contact with executives, decision makers, experts, potential suppliers, customers and peers.

**NEW: this year there will be:**

- one session related to IR cameras (active & passive), another innovative sensor becoming more popular on AVs,
- more ride & drives with demo-cars, after the success of last year (18 reservation slots of 20 min will be proposed).

Like last year, the conference will be held at the Dorint Pallas Hotel in Wiesbaden (about 30 minutes from Frankfurt airport or Frankfurt main railway station by train or taxi).

The conference room can accommodate up to 400 participants. The exhibition area is directly adjacent to the conference room, with space for 20-25 expo booths. As last year, the exhibition area will host the cocktail event on the first day as well as all coffee breaks and lunch breaks. The conference dinner on the first will be served in a round table seating in the conference room.
