

SP3

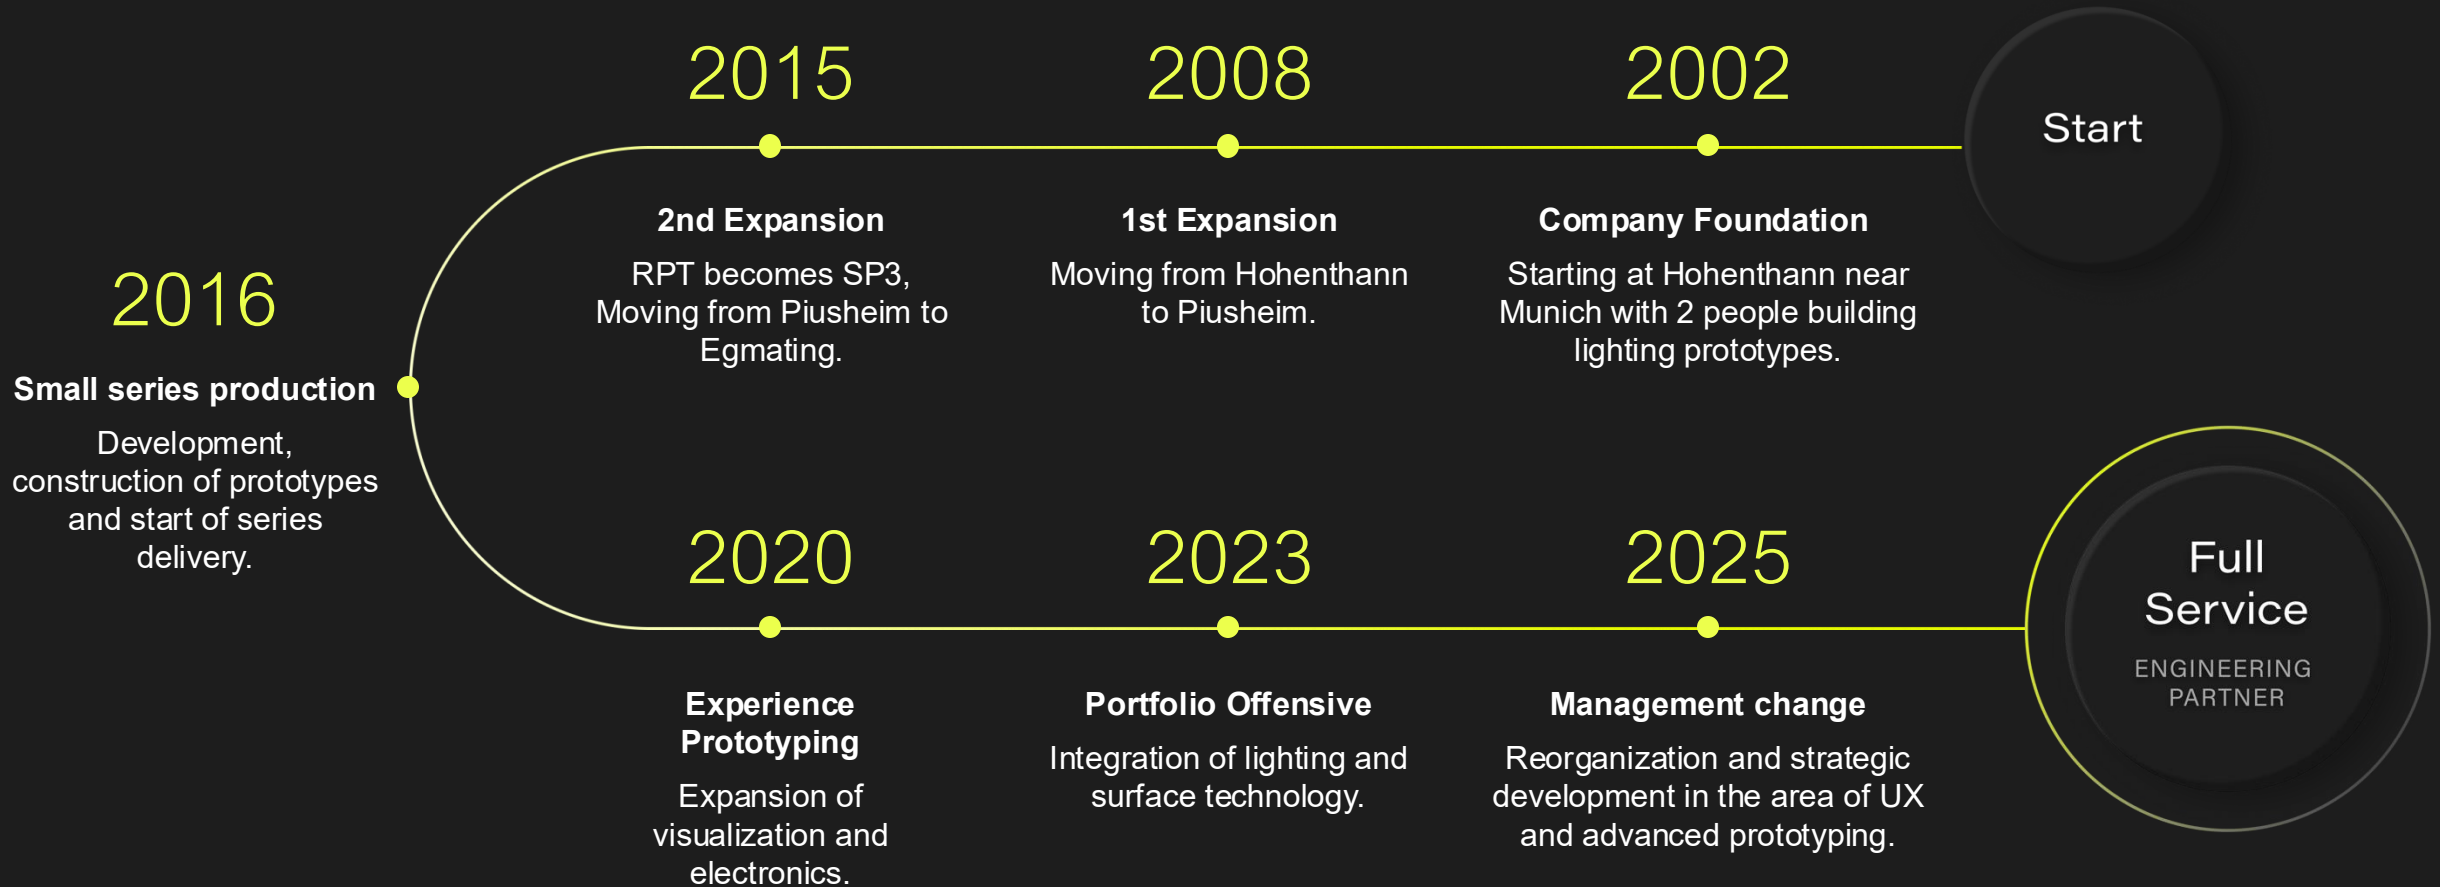

ABOUT US

Beyond Prototyping

With more than 20 years of experience, SP3 stands for more than professional prototypes and services.

SP3 stands for absolute reliability, partnership and trust, coupled with the highest level of scientific knowledge and technical skills.

Our Company DNA

Our commitment is full-service

Our Service is a full-service. That means, SP3 offers the complete customer solutions in each category of product development and engineering.

SP3 stands for Beyond Prototyping.

Beyond Prototyping.

User Experience in focus

Human machine interfaces and advanced lighting applications are an essential part of customer products across the industry.

SP3 is using their engineering power and execution know-how to provide your company best-in-class solutions to express your vision.
