**Saint-Gobain Sekurit is a global leader in automotive glazing systems,**  
delivering innovative and sustainable solutions all over the world.

# WHEN GLASS OPENED THE ROAD TO LIGHT

## Windshield

See-through, transparent

**SEKURIT**  
GLAZING IN MOTION

# PURE TRANSPARENCY: LIGHT ENTERS, VISION EXPANDS

**Side window**  
*See-through,  
Cabin luminosity*

**Windshield**  
*See-through, transparent*

# LET THERE BE LIGHT: THE MISSION OF GLASS

## Sunroof

*Let the sunlight enter the cabin*

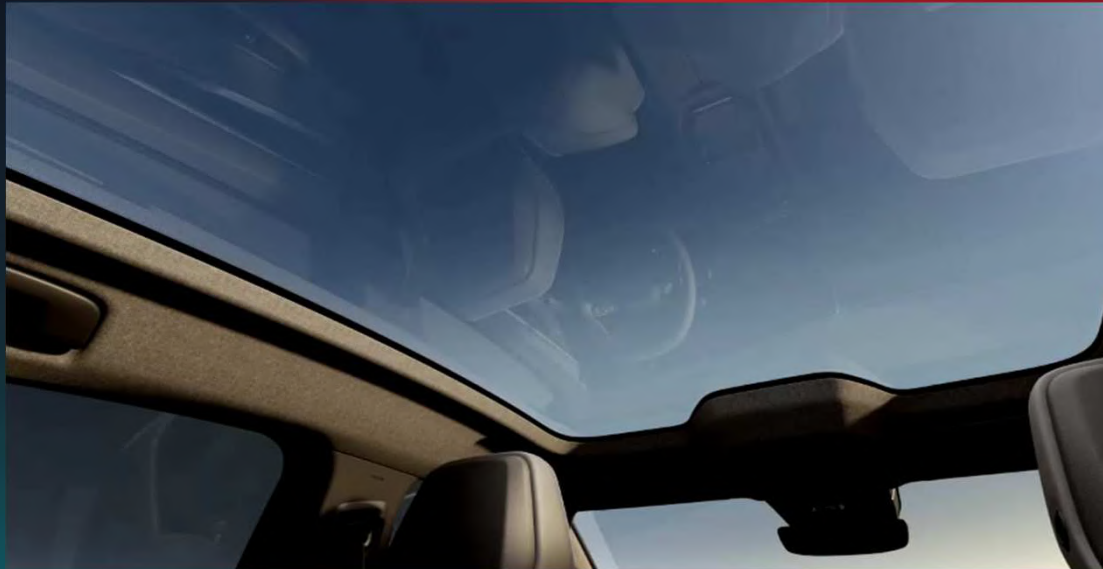

## Side window

*See-through,  
Cabin luminosity*

## Windshield

*See-through, transparent*

# FROM PASSIVE TO SWITCHABLE GLAZING: MASTERING NATURAL LIGHT

**Controlling light entry in the cabin** —> switchable sunroof

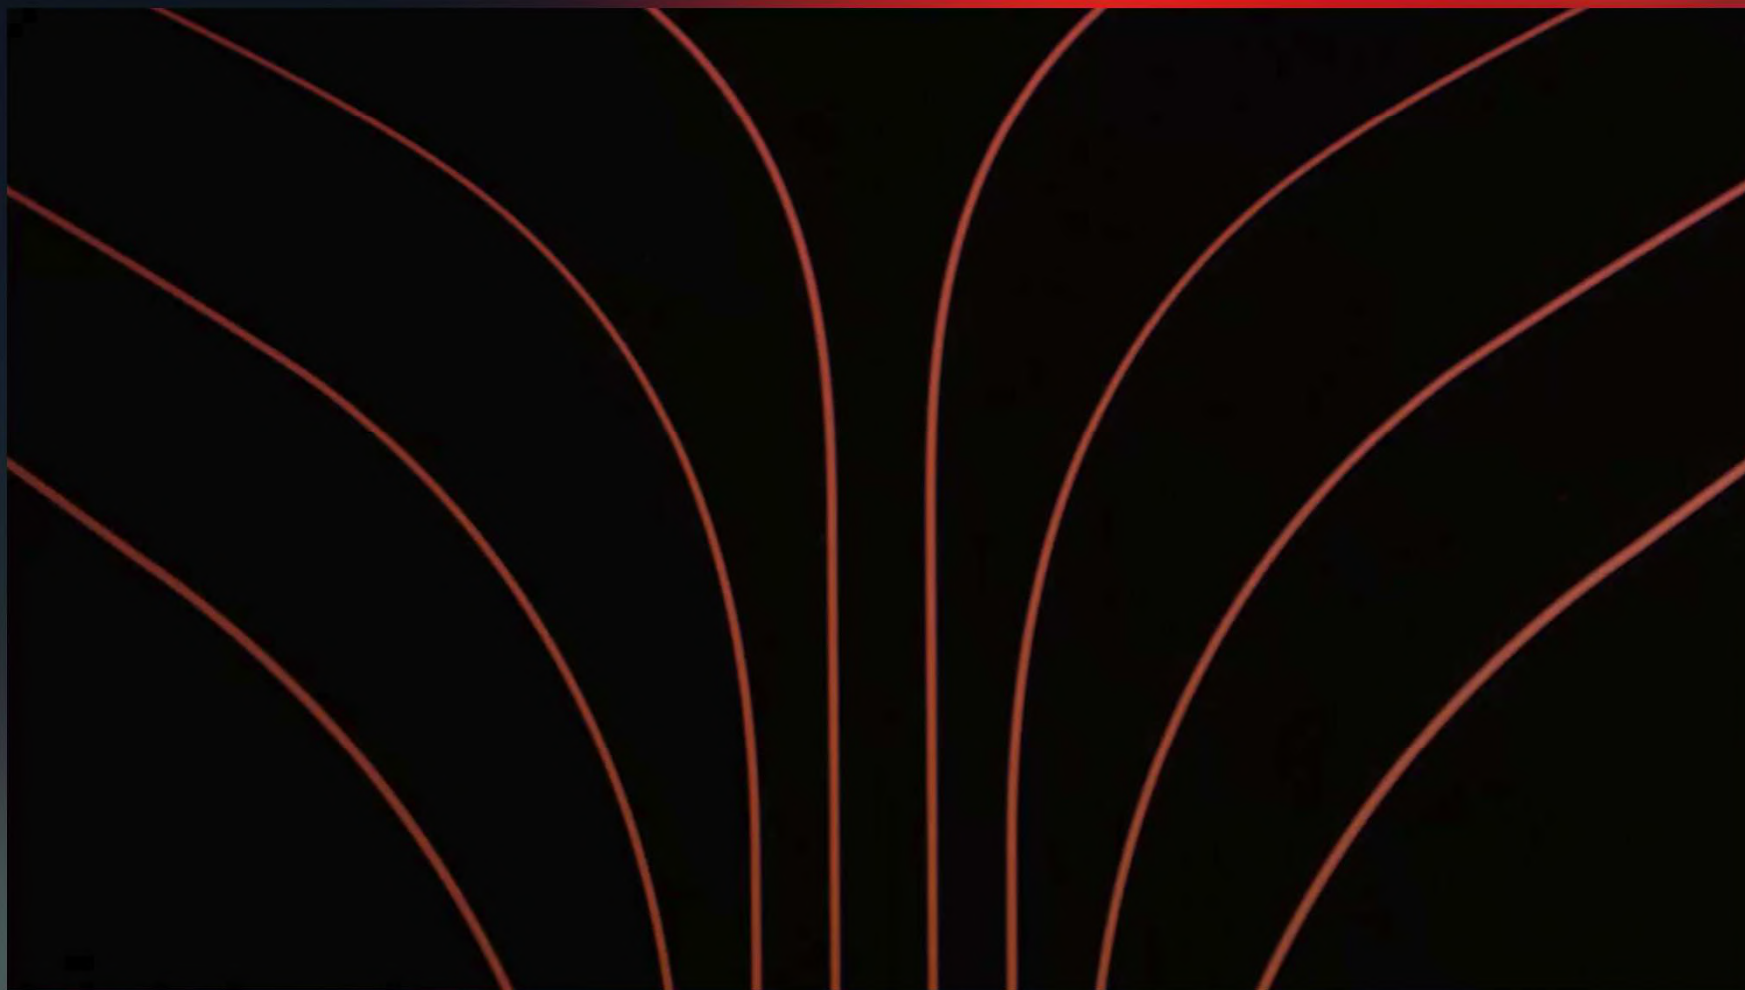

- Active functions and electronics seamlessly integrated into glazing systems
- Invisible when not in use to maintain transparency

**NEXT CHALLENGE FOR ACTIVE GLAZING:**

**DON'T JUST CONTROL THE NATURAL LIGHT—  
BECOME A LIGHT SOURCE.**

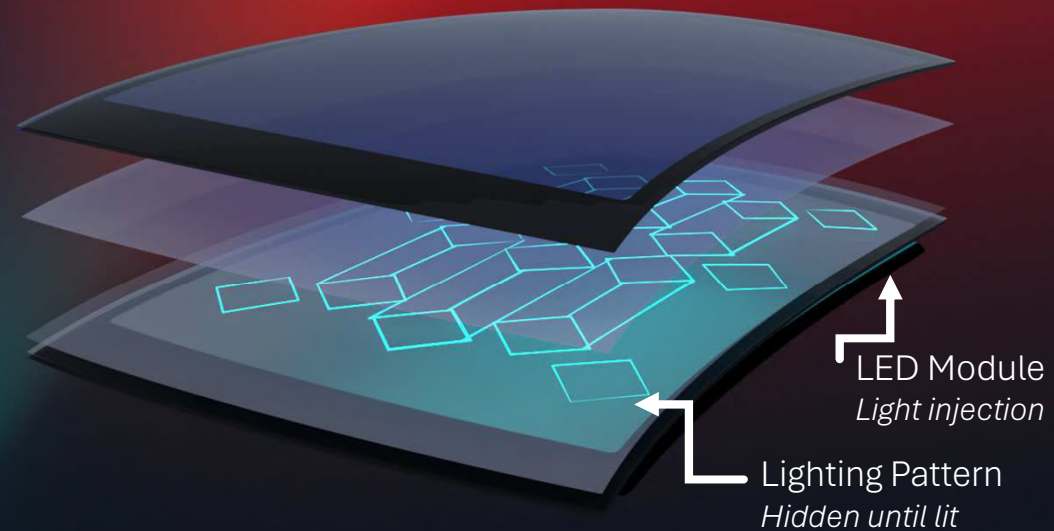

# SEKURIT AMPLISKY® LUMIN

# SEKURIT AMPLISKY® AMBIENT LIGHT

*Our optical system guides injected light inside the glass.  
Once the light hits the transparent design pattern it becomes visible to passengers.*

- Two pane laminated glazing saving space and weight
- Customer and model specific design possible
- Variable color (RGB), intensity and animation of the light
- Full system including Light Modules and ECU
- Combination with Switchable and Thermal Coatings

# LIGHT IN GLAZING: FIRST APPLICATIONS

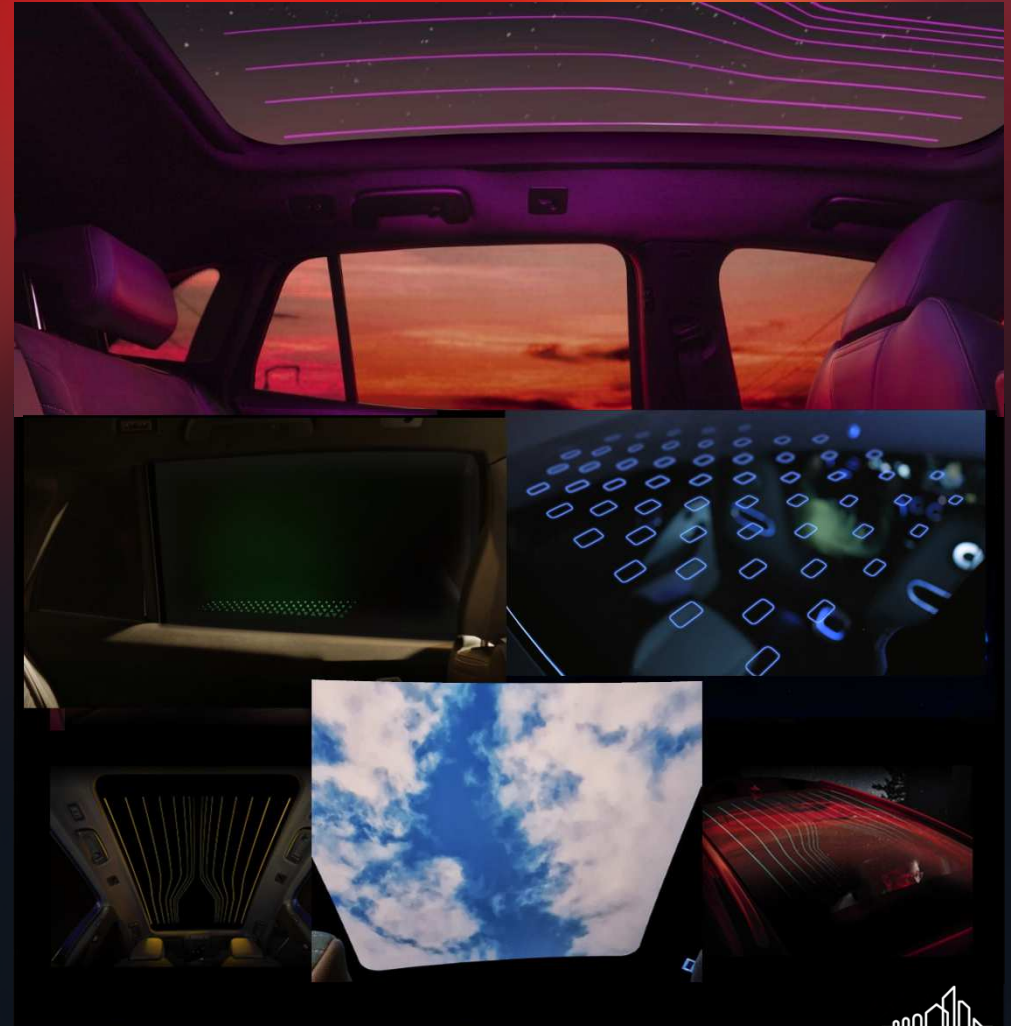

## ENHANCED LIGHTING EXPERIENCE IN THE CABIN

- **Ambient Lighting on a new surface:** Illuminated roof glazing
- **Change the cabin ambiance on demand:** color, intensity and animation of the light.
- **Keep clear view to the sky:** discrete pattern for off state

## A GROWING MARKET

- 10+ Models on the market by end of 2026
- Natural extension of ambient lighting in the cabin
- Contributes to OEM differentiation and brand identity

**THE JOURNEY HAS JUST STARTED !**

# LIGHT IN GLAZING: WHAT IS NEXT ?

## USE CASES : FROM INTERIOR TO EXTERIOR — PASSENGERS , DRIVERS AND MORE...

 Style and Aesthetics

 Ambiance /mood creation

 Customization

 Information

 Vehicle to X interaction

## FEATURES OF NEXT GEN LIGHT IN GLAZING

 Light intensity and color	 New aesthetic & Changing pattern
---	--

 Communication and speed

**LET'S INVENT THE FUTURE TOGETHER!**

## **SEKURIT IMAGINE LAB**

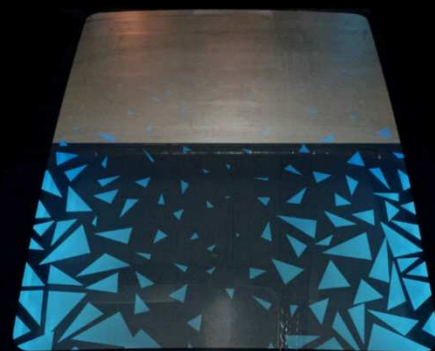

The **Sekurit Imagine Lab** is an *experiential platform* dedicated to **automotive designers** — a place where **glass becomes a design canvas**.

**Playground** of interactive  
sample and functional  
demonstrators

**Explore the creative  
potential of glazing**  
through its endless  
Possibilities of light, color,  
texture, reflection...
