VEHICLE INTERIORS: WHAT'S NEXT?
SHAPING THE HOLISTIC CABIN EXPERIENCE

Get the latest updates –
Scan to follow us on LinkedIn

The cabin is no longer just a space—it's the **next frontier for user experience**. At Driving Vision News Interiors, we explore how technology, design, and human-centric innovation converge to redefine mobility.

The Holistic Cabin: Where Everything Connects

Moving beyond isolated features, the future lies in a **seamlessly integrated cabin**. It's where design, HMI, smart surfaces, lighting, seating, and wellness systems work in harmony, with a single goal: to elevate every journey into an exceptional experience.

Driven by Megatrends, Focused on the Human

Automotive interiors are being transformed by connectivity, automation, EVs, and new regulations. Our conference dissects these forces, focusing on the tangible innovations they spur—from advanced displays and driver monitoring to intelligent interiors that think ahead.

Join the Dialogue on Key Domains:

- Smart Surfaces, Cockpits & Displays
- Interior Lighting & CMF Strategies
- Next-Generation Seating & Electronics
- Driver & Cabin Monitoring Systems

...and more, capped by an exclusive Design Roundtable with industry leaders.
